

4. Revati Wahul “Collaborative web based project management software” International conference on foundation of Computer science and technology July 2012

8. T.B. Mane, Prof. G.P.Potdar “An Approach for Template Extraction from Heterogeneous Web Pages” Elsevier track of Advanced Engineering Technology(AET), Volume 1, Issue 1, May 2013

9. T.B. Mane, Prof. G.P.Potdar “Template Extraction from Heterogeneous Web Pages” International Conference on Emerging Trends and Technology ICETT, ISSN/2249-7277 pg.no197- 201, December 2012
12. Archana Walunj “Ensuring Data storage security in cloud computing” International Conference on Advanced Computer Science and Information Technology 2013
13. N.F.Shaikh “Multi algorithm approach and score fusion model to improve iris recognition efficiency” Recent Advances in Computer Engineering RACE 2013
14. Shramila Wagh “To Implement an efficient RT Network Detection To Reduce False Alarm Rate and Improve Efficiency using ML-Tech” RACE 2013
15. Revati Wahul “Constructing Interdomain Packet Filter for controlling IP spoofing” RACE 2013
16. S.B.Shinde “Intrusion detection model based on fuzzy Data Mining” National conference on Innovations in Engineering and Management 2013
17. Spurti Shinde “Meta Analysis of emotion Recognition Through Facial Expression using different Recognition Method and Database” iPGCON-2013
18. T.B. Mane, Prof. G.P.Potdar “Template Extraction from Heterogeneous Web Pages” . Second Post Graduate Symposium on Computer Engineering cPGCON-2013 Organized by department of Computer Engineering, PICT Pune, on 29th & 30th March 2013
19. Archana Walunj “Use of Artificial Intelligence Techniques Probabilistic Neural Network for Brain Tumaor Classification” National conference UTKARSH 2013
